Our Services And Remuneration

Outline And Options

We offer you an initial meeting to understand in broad terms your needs and objectives and to agree with you that our services are right for you going forward. This meeting usually lasts for around one hour and the cost of which is met by our firm.

Thereafter, we offer either our Advice and Ongoing Review service or a Transactional Advice service and we will agree which is most appropriate for your needs.

With the Advice and Ongoing Review service, we offer a detailed and comprehensive package including the offer of an annual face to face review meeting or by any other medium as you prefer along with an annual policy statement showing the value of any investments we have arranged for you or come under our management. Your investments held under our influence will also be re-balanced regularly to maintain your attitude to investment risk. We will also work with you to assess how on track your financial plans are and make recommendations and amendments as needs be.

With the Transactional Advice service, your investments will not be kept under review and we will not provide any ongoing advice.

We charge for our advice and services by way of a fee which may be by an hourly rate, a fixed amount, a percentage base being deducted from the investment contribution and/or premiums prior to the investment being made, an ongoing fee or a combination of.

Prior to commencing any aspect of work, we will explain and agree with you the services you would like us to deliver and how you will pay for these.

We will always confirm both verbally and in writing to you the cost of our advice and services along with how and when you will be asked to pay for these. We will ask for your consent to the cost of our advice and services in conjunction with the payment method by asking you to confirm within our Authority To Proceed.

We cannot and will not charge you a fee for work completed without your prior agreement.

You should be clear about the services you require and how you will pay for these before we proceed with any work that may incur a charge. We will not exceed a specified budget limit without first consulting with you and receiving your commitment to proceed further.

Generally, we will levy the charge for our services at the end of a given advice process but we may agree with you payments on account before commencement and/or in stages.

Please note that if you subsequently choose to cancel an account, contract or policy where we have agreed the fees to be levied within and/or you cancel the same within the statutory cooling off period, we will apply the charges as advised.

It is likely that the vast majority of our work will be VAT exempt. However, some ongoing service fees may be liable for VAT depending on the nature of the service we agree with you. If this is the case you may be required to pay the VAT rate applicable at the time which based on our understanding of the rules, may have to be applied retrospectively.

We will inform you if VAT is payable on any element of the services offered. Please note where VAT is payable, we are required to pass this on to Her Majesty's Revenue and Customs (HMRC).

Transactional Advice Service

This will involve Stages 1 to 4 as noted within the Advice and Ongoing Review service excluding Stage 5.

Remuneration - Hourly rates

We are required to quote our Hourly Rates which are:-

Financial Planner/Adviser - £180 per hour
Paraplanner - £90 per hour
Administration - £50 per hour

Remuneration - Fixed Amount

We operate a scale of fixed charges which depend on the task/s required, an outline of which is listed below. When this applies, we will advise and agree with you at each stage.

Initial Assessment	£750
Fund Performance Review	£450
Retirement Provision Forecast	£450
Portfolio Valuations	£125
Policy Valuations	£25 per Policy
Provision of Pension Contribution details	£50
Requesting and dealing with a Surrender Value	£50

Certain additional services may be required where we outsource to specialists. An example of which being a Transfer Value Analysis from an existing or former Occupational Pension Scheme. In such an instance we will pass the cost onto you and may add an additional amount for our time. This will be advised and agreed with you prior to commencement.

Depending on your requirements and your agreement we may also charge you an additional ongoing fee.

And although that below is a guide, we will in a number of cases undertake work on a fixed fee basis which again will be agreed with you in advance.

Remuneration - Investment Lump Sums

Most people opt to pay for our advice and services by the deduction of a percentage based fee from the investment amount sent to the provider, platform or fund manager at the point of its investment.

We have a tiered charging model of 3% on the first £100,000 invested and 1.5% over that amount regardless of the product, tax wrapper or combination of. Our fee for the Ongoing Review service is charged at a maximum of 1% per annum where again most people opt for this to be paid as a deduction from their investment and paid by the provider. Alternatively, you could choose not to have this deducted from your investment and could pay for this separately.

As an example, if you invest a lump sum of £100,000 and our fee is £3,000, that amount will be deducted before the remaining £97,000 is invested. The £3,000 is paid to us by the provider as our fee.

To facilitate this, the provider will need explicit consent that you have agreed to this method of payment and we will ask you to confirm this within their fee agreement for onward transmission to the provider.

The full details will be shown to you in the personalised illustration.

Remuneration - Investment Regular Premiums

Again, most people opt to pay for our advice and services by the deduction of a percentage based fee from the investment amount sent to the provider prior to its investment.

In this instance, our model is that we have a flat charge of 3% on each and every contribution made. As an example, if you make a regular contribution of £100 per month our fee is £3 on each contribution made regardless of the tax wrapper/product. If you make no premium/contribution by way of a payment holiday, no such fee is deducted. Again, this is paid to us by the provider as a fee.

As with Investment Lump Sums, the provider will need explicit consent that you have agreed to this method of payment and we will ask you to confirm this within their fee agreement for onward transmission to the provider.

Again, the full details will be shown to you in the personalised illustration.

Remuneration - Pure Protection Policies

For protection products that are not investment based such as Term Assurance, Critical Illness Cover, Whole of Life and Income Protection Insurance, we receive commission from the product provider. Where this is the case, a separate fee will not be payable unless specifically agreed for any additional work that may be required.

Where we receive commission from a provider we will disclose this to you via a personalised illustration so that you know how much we are receiving for arranging this on your behalf.

Remuneration - Non-investment insurance

For non-investment insurance we also receive commission from a provider. Again, where this is the case we will disclose this to you via a personalised illustration so that you know how much we have received for arranging this on your behalf.

Implementing Investment Solutions

As with most investments there is a risk of loss, especially in the short-term (over periods of less than five years). If you need access to your money in the very short-term, then holding it in a risk-free bank account could be the right course of action. We will discuss these options with you as well as providing a detailed suitability report for you to read in your own time, before we implement our recommendations. This will help ensure that you understand the advice you have been given. Of course, if you have any questions we will be happy to help. You are not obliged to implement any of our recommendations. However, we may still charge a fee for our advice.

When we arrange an investment for you, it will typically be made into a collective investment fund. These funds have a range of different investment strategies, so we will recommend one that aligns with your attitude to risk and the period of time you wish to invest for.

These funds will typically be bought via an investment platform that we recommend for you. Once we have completed the advice process, the investment will be made for you in a timely manner and in accordance with our Best Execution Policy. For the majority of collective investments, they will be bought or sold at the next Valuation Point (typically Midday) on the next business day, after the instruction has been received by the provider or platform.

Once we have agreed on an appropriate solution we will provide you with full details of the investment fund, platform, provider and all associated costs.

Impacts Of Fees

When you make an investment there will be costs involved which will impact on your investment returns. These costs will typically comprise of the provider or platform charge, the fund managers charge and our advice fee. These charges may amount to up to 2.5% per annum, so your investment return will be reduced by this amount each year. Your personalised illustration will clearly show the actual costs that will apply to your investment.

Client Money Peace Of Mind

We do not handle Client Money. We never handle cash and will only accept a cheque made out to us in settlement of advice and fees. Our preferred method of payment is via bank transfer.

Your Duty Of Disclosure

Any financial advice we provide will be based on your personal financial circumstances and objectives. It is important that the information you give us is both accurate and a true reflection of your current circumstances.

It is your responsibility to provide complete and accurate information to a provider. A provider being for example and not limited to an organisation that provides insurance, mortgages or investment related plans.

It is important that all statements made on any proposal form or on any additional documentation, are full and accurate.

Please be aware that if you fail to disclose any relevant information, or any change of circumstances to a provider, then the terms of your desired plan may be invalidated (ie an insurance claim may not be paid). We strongly recommend that the information you provide is checked thoroughly prior to submission.

Investment Advice and Recommendations Scope

Any investment advice we provide will be based on your personal financial circumstances and objectives. We will confirm these and the reasons for any recommendation in a Suitability Report.

If you have asked for any restrictions on the types of investment or the markets you wish to invest in, these will be confirmed in the Suitability Report. We will always make it clear when products are not within the regulated scope and advise you of your rights.

Paying For Advised Services

Where payments are facilitated through a platform or product, this will impact the actual amount remaining invested. Payment of our advice and fees facilitated by the relevant providers or platform, generally as a percentage of contributions invested, or by way of a fixed fee if that has been what we have agreed with you, or of the value of the plan's value under management as at the anniversary of the initial investment. As such, the cash equivalent amount will vary depending on the value at the time.

Providers and platform administrators will detail the specific process they operate to facilitate a fee within their literature. If you pay for our advice and fees directly (ie not through the provider) an invoice will be provided as necessary.

Full details of the final advice will be provided in the Suitability Report. Full details of the any future fee will be provided either in the Suitability Report and/or within our Authority to Proceed. You may also be asked to sign and return a copy of the Authority to Proceed document to confirm your understanding and acceptance of the arrangements.

Cancellation/Termination of Authority

Any ongoing fee or our authority to act on your behalf can be cancelled at any time without any penalty by email or post using contact details provided. These methods ensure we have an audit trail for your instruction. You will be responsible for cancelling any instructions from your bank. If the fee is being taken from your investments, we will endeavour to instruct the provider to stop the fee within five working days of receiving your instructions and refund any over payment if we are unable to meet this commitment.

Language

Unless agreed by us at outset, all communication will be completed in English.

Overseas permissions

All Financial Planning advice will be conducted within the UK. We do not have permissions to give advice when either you or the adviser are located in any overseas location, regardless of whether that location is in the European Economic Area (EEA) or not.

All Protection advice will be conducted within the EEA. This means that both you and the adviser can be in any EEA country at the time advice is given.

Timing Of Reports

You will be sent a Suitability Advice Report in respect of Financial Planning advice setting out the reasons for the recommendations at the time of the recommendations and where applicable, before implementing any advice that has been recommended.

With respect to Protection advice, you will be sent a Suitability Advice Report setting out the reasons for the recommendations within five days of completion of the contract.

VAT

The service we provide is described as an intermediation service. This means that we provide advice with the intention of acting between you and a provider to arrange a financial product or service. If we did not do this we would be liable for VAT on the fees charged. VAT is not applicable on the fees we charge for intermediation services. In arranging the sale of retail financial products an advice fee made for advice, even if you decide not to proceed with the purchase of the recommended product, will remain VAT free where the adviser has provided you with full advice services up to that point, including all relevant documentation.

The advice fee made for an ongoing service is also VAT free provided it is in respect of an intermediation service. This means activities such as topping up an investment or utilising available investment tax allowances such as the ISA allowance. In the event that the advice services we provide become ancillary to our intermediation services, VAT may become chargeable (ie we review your entire financial circumstances but make no or limited recommendations).

Should this change in the future and where VAT becomes due, we will notify you before conducting any further work. In any case, where VAT is payable on our services it will be charged in addition to the agreed fee.

Where a Discretionary Fund Manager (DFM) forms part of a solution, then VAT may become chargeable.
